

FLYNN ENVIRONMENTAL, INC.

***UST Corrective Actions
Lake County, OH***

Flynn removed 3 UST systems used to store gasoline, diesel fuel, and stoddard solvents. Contamination identified during the closure prompted a Tier 1 Evaluation. Benzene concentrations up to 7 parts per million were identified in soil. Flynn conducted a Tier 2 Evaluation at the site and used land and groundwater use classifications combined with a risk assessment to eliminate the need for remediation.

The client received a **No Further Action** letter from **BUSTR** less than 7 months after the USTs were removed.

Chemical of Concern	Maximum Soil Concentrations (mg/kg)	Tier 1 Action Level (mg/kg)	Tier 2 SSTL (mg/kg)
Benzene	7.0	0.24	26.3

- ✓ **UST Closure**
- ✓ **Tier 1 Evaluation**
- ✓ **Tier 2 Evaluation**
